## responder

Under <http://www.remus.eu/powerizer/> and <http://www.remus.eu/remusresponder> you will find the entire product range, prices and installation instructions.

### REMUS RESPONDER:

#### Improved throttle response, more dynamic!

The REMUS Responder improves throttle response by means of modifying the accelerator pedal output signal. No more throttle delay and reduced lag during automatic shifting makes driving with the REMUS Responder more fun. The Responder attaches between the OEM pedal sensor and the OEM connector, ready to use in seconds due to plug & play technology. Sophisticated adjustable programming profiles can lead to improved fuel consumption and more efficiency. The 4 individual user selectable and adjustable performance settings allow drivers to select according to their own preferences.

The REMUS Responder totally eliminates the delay in modern electronic accelerator pedals!
